

Strategic Plan-ting™ Your Business Future WORKSHOP

Yield Better Business Results with Strategic Plan-ting™

To Thrive, Businesses Need a Plan

As any good gardener knows, it takes a combination of planning and execution to yield the best results. The same is true in business. But often times, every day challenges prevent small business owners from planning. Whether it's from lacking the know-how, or failing to prioritize planning, many owners simply do not create a strategic plan. But, just like a garden, a business without a plan is in jeopardy of failing to thrive.

The Strategic Plan-ting™ Workshop

Karen Jett, owner of Jett Excellence, has developed the Strategic Plan-ting™ workshop to make strategic planning more comfortable and accessible for small business owners.

In this one day, interactive session, Karen will work with you step-by-step to create your strategic plan. At the end of the day you will leave the workshop equipped with:

- A complete strategic plan—Outlining your long term and short term goals and how they will be achieved
- Quarterly goals –Along with a detailed action plan for achieving these objectives
- Three clarifying questions—To assist in your decision making process

Participants also receive complimentary pre- and post-session teleconferences and emails.

The Benefits of Strategic Plan-ting™

By taking the time to plot out the critical activities for achieving your objectives your business will benefit in the following ways:

- Improved Productivity
- Better Alignment
- Increased Profitability
- More Control
